

Product Information

CR DEGREASER X

USAGE/DESCRIPTION

Cr Degreaser X is a specially formulated as a neutralizer for Acrylic and Acetate related products. It is used to clean up spillage of Acrylic Acetate and other offensive odor products and for tank cleaning where a change of cargo is desired.

TYPICAL SPECIFICATIONS

Specific Gravity at 20°C	:	0.91
Flash Point	:	Non Flammable
Odour	:	Mild, Pleasant
Appearance	:	Clear

Product Information

BENEFITS / ADVANTAGES

This product is specially formulated for the main purpose of improving the efficiency of traditional caustic based cleaner and at the same time give a fully biodegradable final mixture that will have a much lesser impact on the environment.

APPLICATIONS

Cr Degreaser X is important to note that Acetate monomer will polymerize in the presence of water. As such all residual monomer is removed, proceed with the tank cleaning with a solution strength of 5% in warm (45°C) fresh water. Then circulate the tank for 3-4 hours.

HANDLING & PRECAUTIONS

Avoid prolonged contact with skin.

Allow proper ventilation.

If liquid gets into eyes, flush with copious amount of water.
